Dear Students,

We hope this message finds you in good health.

We need to share some important news about our company. Over the past year, we've been struggling with financial problems. The current economy and a lack of investment have made it impossible to keep our operations going. Our company was founded with a goal to provide affordable education and job placements. However, various challenges in the EdTech field in India have made this increasingly difficult. We started losing money at the beginning of last year, which is why we haven't been able to start a new batch in the last 8 months. Despite our efforts to find investors during this time, we've been unsuccessful. As a result, we have decided to close all operations by the end of this month.

We understand that many of you are currently in the middle of the placement process, after more than 7 months of teaching, and this news might be upsetting. We didn't make this decision lightly and we deeply regret any inconvenience it may cause.

Our company was started 4 years ago with the main goal of providing excellent service and support to our students. However, due to our current financial issues, we find ourselves with no other choice. Please understand that this decision isn't a reflection of your abilities or the quality of our work together. It's purely a result of our financial situation.

For those of you who have passed the Placement Ready Test, please reply to this email with your resumes. We're committed to helping you as much as we can during this transition and will forward your details to our network to assist you in finding job opportunities.

For those who haven't passed the Placement Ready Test, we strongly encourage you to continue learning. When you feel ready, please reply to this email with your resume and we'll share it with our network. All learning materials will be available on your portal until August 14th. We can't afford to keep the portal running after this date, so please make sure to download any materials you need before then.

We have full confidence in your abilities and determination. This challenging period will pass, and your skills will guide you towards new and exciting opportunities.

Thank you for your understanding and patience during this difficult time.

Best Regards,  
AttainU Management
